House Journal

The following letter of intent for HB 3001 was offered by Representatives Samuels, LeDoux, Gara, Holmes, Kerttula, Kelly, Crawford, Gatto, Lynn, Buch, Seaton, Gardner, Guttenberg, Kawasaki, Harris, Hawker, Doll, Johnson, Salmon, Meyer, Edgmon, and Cissna:

"The purpose of the award of an exclusive license to TransCanada Alaska Company, LLC and Foothills Pipe Lines Ltd. (hereafter referred to as TransCanada) is to expedite bringing North Slope gas to market. To meet the Alaska Constitution's mandate to develop Alaska's resources for the maximum benefit to Alaskans, it is the intent of the legislature that the executive branch continues to aid project proposals in addition to just a TransCanada pipeline into Canada. It is the intent of the legislature that an AGIA license will enable and encourage an All Alaska gas line/liquefied natural gas (LNG) project within the TransCanada project.

Recognizing that high energy prices have resulted in an energy crisis in communities throughout the state, it is the intent of the legislature that an award of an exclusive license to TransCanada not interfere with the rapid delivery of North Slope gas to Alaskan markets. The legislature urges the construction of a project that would facilitate delivery of in-state gas by way of a project built as part of a TransCanada project.

To prepare for an open season that includes an All Alaska gas line/LNG project in conjunction with the TransCanada project into Canada, it is the intent of the legislature that such project receives the assistance of the executive branch and be granted expedited review and action by state agencies.

Nothing in this letter of intent is intended to alter the obligations of the parties under the law, and nothing in this letter is intended to encourage the violation of these obligations."
